

Organize the Kitchen in Your Life!

Have you ever.....

- Discovered that you have 2 or 3 of the same item, in the very same cabinet on the very same shelf and they're all open?
- Been frustrated by a lack of shelf space or cupboard space?
- Had to toss out hardened brown sugar or stale crackers?
- Been reluctant to open your cabinets in front of guests?
- Been forced to buy smaller, less economical amounts because larger quantities won't keep?
- Been hungry for chips only to bite into one and have it taste awful?
- Had to clean up pasta or flour spills from half-opened bags or boxes?

- *Pantry*
- *Kitchen cabinets*
- *First apartment*
- *Motor Home*
- *Cabin*
- *Dorm Room*
- *Boat*

Tupperware has the answer!

- With Custom Kitchen design, every Modular Mate has a permanent position, so no food ever gets lost or duplicated.
- Modular Mates stack together so every inch of your shelf space is put to use.
- You'll never have to throw away hardened brown sugar again. Modular Mates are virtually air-tight, prolonging the shelf life of ALL your staple foods.
- Custom Kitchen Planning with Modular Mates will organize your cabinets or pantry so well, you'll want to show them off or even leave your cabinet doors open!
- Buying in bulk is easy with containers made for storing the most economical sizes.
- We have HEAT, HUMIDITY, and BUGS here. Storing your chips or crackers in Modular Mates is smart. Even if it takes you an entire year to use them all up, they are going to be fresh when you're ready to eat them.
- Modular Mates seal tight and stack snugly. Nothing ever has a chance to spill.
